Hello Lisa,

Thank you for the quick response! Would it be possible to schedule a conference call sometime today or this week?

Thank you,  
Angela Shibata

Hi Angela,

Setting up a time to talk sounds great! I'll actually be at AQMD offices next week on Wednesday. If the timing works, perhaps we can meet separately to discuss this. I think we are scheduled to be in a meeting from 9-11am. So maybe we could meet at 11? Or I could probably duck out of the meeting early at like 10:30a.m.

If we can't get that to work, we'll probably need to wait until early October. I have quite a bit of availability the week of October 2, so I'm sure we could find a time that week that works.

Lisa

Hello Lisa,

Earlier in the summer, Ms. Roshini Brahmhatt had referred me to you regarding how to go about imposing the requirements of 40 CFR 60 Subpart Ec-Hospital/Medical/Infectious Waste Incinerators on a system that utilizes pyrolysis, plasma, and a residence or holding chamber.

I was hoping to set up a time that my manager and I could talk about this with you at your earliest convenience. Please feel free to email or call me (909-396-2737) to let me know when you are available.

Thank you very much,

Angela Shibata
